

RTG 2416 Multi Senses Multi Scales

RTG Symposium Cortical Sensations

October 4, 2019, 10-17h

Speakers:

Greg Stuart	ANU Canberra, Australia	
<i>Cellular and circuit mechanism underlying binocular vision</i>		10:00-11:00h
Asli Ayaz	Uni Zurich, Switzerland	
<i>Sensorimotor integration in primary sensory cortices</i>		11:00-12:00h
Johannes Letzkus	MPI Frankfurt	
<i>Processing of Top-Down Information in Layer 1 of Auditory Cortex</i>		13:00-14:00h
Marc Spehr	RWTH Aachen	
<i>Synchronous infra-slow oscillations organize ensembles of accessory olfactory bulb projection neurons into distinct microcircuits</i>		14:00-15:00h
Michael Häusser	UCL London, UK	
<i>All-optical interrogation of neural circuits during behavior</i>		15:30-16:30h

Location:

Zoology Institute RWTH Aachen
Seminar Room 1.011
Worringerweg 3, Aachen

After the talks we will meet for a BBQ at Adamshäuschen at 18h
